

Student Checklist for 1 Year 1 Day to be more effective on Campus Interviews

1 Year 1 Day offers a great opportunity to Companies to meet with young Engineers and Scientists of Genoa University. At the same time, **1 Year 1 Day** allows young and highly qualified engineers to complete the Interviews of One Entire Year within a Single Day

Please consider the following checklist as useful recommendations to be more effective:

1 Year 1 Day

- Companies at **1 Year 1 Day** are looking for qualified Engineers, not just taking a tour: several ones come by travelling over 250km and bringing 1-3 people (working value ~300-5000\$) just to talk with you. They are searching for talented Engineers so be professional and present yourself properly including your attire.
- The **Campus Interviews** are your opportunity to present yourself and learn what Companies want and how they select their people, so do as many as you can in professional way
- Over 36 Companies will attend this Edition (ranging from companies with few employers up to over 100'000), your target should be to complete at least 12 **Campus Interviews**, if possible 20.
- Keep connected on the event by being connected on **Smart 1Y1D** www.simulationteam.com/1year1day
- Check info about Companies Activities before your Interview through **Smart 1Y1D** and web
- Don't underestimate the opportunities offered by Companies that you don't know or Small Enterprise, sign to complete interview with them as well as with big player: they offer pretty interesting working opportunities
- Companies will deliver Short Speeches at **Speaker's Corners**, as scheduled in the **AGENDA** on www.itim.unige.it/mipet/1year1day.
- **Campus Interviews** will start since November 25 Morning, so be around and ready and move across the **Speaker's Corners** to learn what the Companies are looking for.
- At **Speaker's Corners** you will find the lists where to sign your application for interview for each company
- Consider that you are an **ENGINEER** from one of the world Best Universities and even if your specialization is important, the crucial element is your strong background, your personal potential & professional approach. So don't restrict your interest just to Companies in your specific sector
- Be always professional and fair at **Campus Interview**, we provide you this opportunity... use it!
- Prepare your Curriculum Vitae and bring several printed copies at the Event, but try to upload it also on
 - <https://piazzastudenti.aulaweb.unige.it/enrol/index.php?id=53>
- Consider to participate to 1 Year 1 Day Preparation Meeting, B16 on November 18, 1600-1800
- **1 Year 1 Day** is mostly focused on jobs for new Graduates, but it is very useful also to activate Thesis, Internship, Part Time Jobs for students, so consider to attend asking Companies for these opportunities

Note: Do you know why we write this communication in English? To provide useful information to you for finding a good Job, to guarantee that our Students will appear as they should appear to Company Eyes, to provide Companies a valuable service devoted to reinforce our cooperation in Real Projects and... to guarantee that this benefits is especially available to Engineers that are curious, smart, proactive and deserve it.
