STRATEGOS
MSc in Strategic Engineering

by Genoa University
www.strategos.it

MIPET 11th Edition is Open

Master Internazionale in Impiantistica e Tecnologie, Ingegneria
Scuola Politecnica, Università Genova

www.itim.unige.it/mipet/join

MIPET is the 1st & most consolidated International Master Program of the University of Genoa, since over 10 years &...

..fully sponsored privately by Major Multinational Companies..

...that invest on young Engineers and look for talents!

MIPET 11th Edition starts in Spring 2020 and...

...brings you to real work in only 4 months.

After classes you will complete your Internship in a Leading Industry for over 3 months (usually paid), after it...

...you will present your Project Work and be ready for evaluating the final Real Job proposals by the Sponsors.

Major Companies invest time & money in MIPET and provide grants, so it is not surprising the fact that...

...MIPET Placement overpasses largely 80% and this year 10% of MIPET Students get hired in Multinational Industries by a permanent contract even before to start their internship

You are invited to Apply, the best candidate get Free Registration, so apply before 7 April 2020

MIPET is a very exciting opportunity for Italian (and not only) Engineers willing to work in Genoa and/or Overseas!

PAUL WURTH

STRATEGOS

Polytechnic School
Genoa University

Engineering Technology for Strategy & Security

- STRATEGOS** is the first Master Science in Strategic Engineering (Laurea Magistrale) in Italy and among first ones in the world and it is organized by the University of Genoa
- STRATEGOS** lasts 2 years in total, including the six-month internship and the related thesis conducted entirely within an Enterprise (48 credits out of a total of 120)
- STRATEGOS** has Industrial Partners of the caliber of Accenture, Ansaldo, Axpo, BearingPoint, Hitachi, Leonardo, Thales, Tenova, etc. and all offering Internships
- STRATEGOS** provides high-profile job opportunities in Big Industries, Consulting Firms, Hi-Tech Startups and Int. Agencies (e.g. NATO M&S COE, Research Consortia)
- STRATEGOS** teaches how to combine Modeling & Simulation, AI¹/IA² & Machine Learning and Data Analytics to support Strategic Decision Making
- STRATEGOS** integrates new technologies with enabling factors such as IoT³, IoE⁴, Social Media, Human Behavior Models to develop new Solutions
- STRATEGOS** is really Transdisciplinary and, thanks to courses in Economics and Int. Affairs, teaches Engineers to work and interact with Decision Makers
- STRATEGOS** is International, in English, with many Workshops where to work in Virtual Labs, Simulation, RPG⁵, Serious Games, eXtended Reality (VR⁶/AR⁷/MR⁸).
- STRATEGOS** accepts all types of talent from Scientific & Engineering BS and provides assessments on the potential in Strategic Engineering (Skype / Live interview)
- STRATEGOS** for additional information please check our web site www.itim.unige.it/strategos or send an email to info.strategos@diten.unige.it

1 AI Artificial Intelligence
 2 IA Intelligent Agents
 3 IoT Internet of Things
 4 IoE Internet of Everything
 5 RPG Role Playing Game
 6 VR Virtual Reality
 7 AR Augmented Reality
 8 MR Mixed Reality
