Security Studies. Focus: Foreign and Defense Policy

LM/DS Engineering Technology for STRATEGOS, Strategic Engineering MSc Email Fabrizio.coticchia@unige.it URL www.fabriziocoticchia.com

Structure and education objectives:

The course aims to illustrate the evolution of contemporary security, from the socalled "new wars" to the peace support operations and terrorism.

A specific focus will be devoted to the European security and to the Common Foreign and Security Policy of the EU, examining in details, strategies, approaches, tools and resources.

The course provides the conceptual tools to better understand the transformation of international and European security, devoting attention to the role of technology in modern warfare. Theoretical perspectives will be combined with updated empirical analyses on the evolution of security, in Europe and beyond.

Several seminars with scholars, experts and practitioners will be organized.
