WAMS: A Classic International Workshop

The [8th WAMS](#) concentrates on Applications of Simulation and Computer Technologies.

The [WAMS 2014](#) was organized in the wonderful framework of Bosphorous Turkey and also the new 2016 edition will result in a great opportunity for the International Simulation Community to meet together in front of the wonderful Mediterranean Sea. In fact WAMS is a workshop very effective in networking and very useful to set up new proposals and projects. Worldwide specialists have the opportunity to participate and to interact within this important International Forum on Applied M&S. The audience will include both users, vendors and scientists operating in applying advanced techniques to the main application areas and sectors including Industry, Business, Logistics Environment, Services & Defense.

WAMS [started as a series of international workshops](#) organized in Latin America, [AMS2004](#) (Rio de Janeiro) and [AMS2006](#) (Buzios); these events were focusing on Application and Theory of Modeling & Simulation.

In following years WAMS was organized in both side of Atlantic Ocean (i.e. Rio de Janeiro, Italian Riviera), while in 2011, WAMS was co-located with the [International Marine Defense Show in St. Petersburg Russia](#) organized in Joint Cooperation with [SPIIRAS Russian Academy of Science](#).

In 2012, WAMS was held in [Rome](#) in connections with the [NATO CAX Forum](#).

The [WAMS 2013](#) was back in Latin America and it attracted scientists, technicians and experts from world leading Universities, Institutions, Agencies and Companies; indeed WAMS 2013 edition was held in [Buenos Aires, Argentina](#) and was attended by all Latin America Countries as well as by scientists from Europe, North America, Asia and Australia.

In [2014 WAMS](#) moved in Bosphorous between Asia and Europe in the beautiful town of Istanbul.
